The AustralAsian Academy of Anti-Ageing Medicine (A5M) is dedicated to the advancement of Anti-Ageing Medicine in AustralAsia and is associated with the World Academy of Anti-Ageing Medicine (WAAAM) and the American Academy of Anti-Ageing Medicine (A4M). As part of a global collective, A5M has links to the world's most respected medical doctors, health practitioners and scientists in the field of Anti-Ageing Medicine.

The role of A5M is to develop and promote all aspects of Anti-Ageing Medicine among practitioners and the community, as well as to educate physicians, scientists, healthcare professionals and the community alike in Anti-Ageing Medicine.

A5M aims to disseminate information concerning innovative science and research as well as treatment modalities designed to prolong the human life span.

Anti-Ageing Medicine

Anti-Ageing Medicine is the fastest growing medical specialty in the world. It is founded on the application of advanced scientific and medical technologies for the early detection, prevention, treatment and reversal of age-related dysfunction, disorders and diseases.

It is a healthcare model promoting innovative science and research to prolong healthy human lifespan. Anti-Ageing Medicine is based on principles of sound and responsible medical care that are consistent with those applied in other preventive and restorative health specialties.

Anti-Ageing Medicine can be adjunct to traditional treatments or become a specialty clinical/medical modality for GPs, Physicians and other health professionals.
